# ITI / FUA territorial delimitation for 2021-2027 in the Czech Republic

Zbyněk Šimánek

14. 11. 2019, Prague

# Integrated Territorial Instrument Delimitation in CZ

## 2014-2020

- ITI EU Regulation framework limit 300 000+ inhabit.
- Set of criteria by NCA
- Tailor-made delimitation
- Incomparable territories

## 2021-2027

- No ITI population limits
- Uniform delimitation by NCA
- Reflection of real spatial relationships
- One size does not fit all

# Process of delimitation in CZ

- Consortium (Charles University + analytical experts + Advisory company)
- Methodological framework
- Data from Telecommunication utilities - Cellular Network Signaling Data
- Combination of 3 methods and synthetic approach
- Opposition proceeding
- Final delimitation in 1Q 2020
