

MINISTRY
OF REGIONAL
DEVELOPMENT CZ

SMART Cities

- Part of the Czech Urban Policy

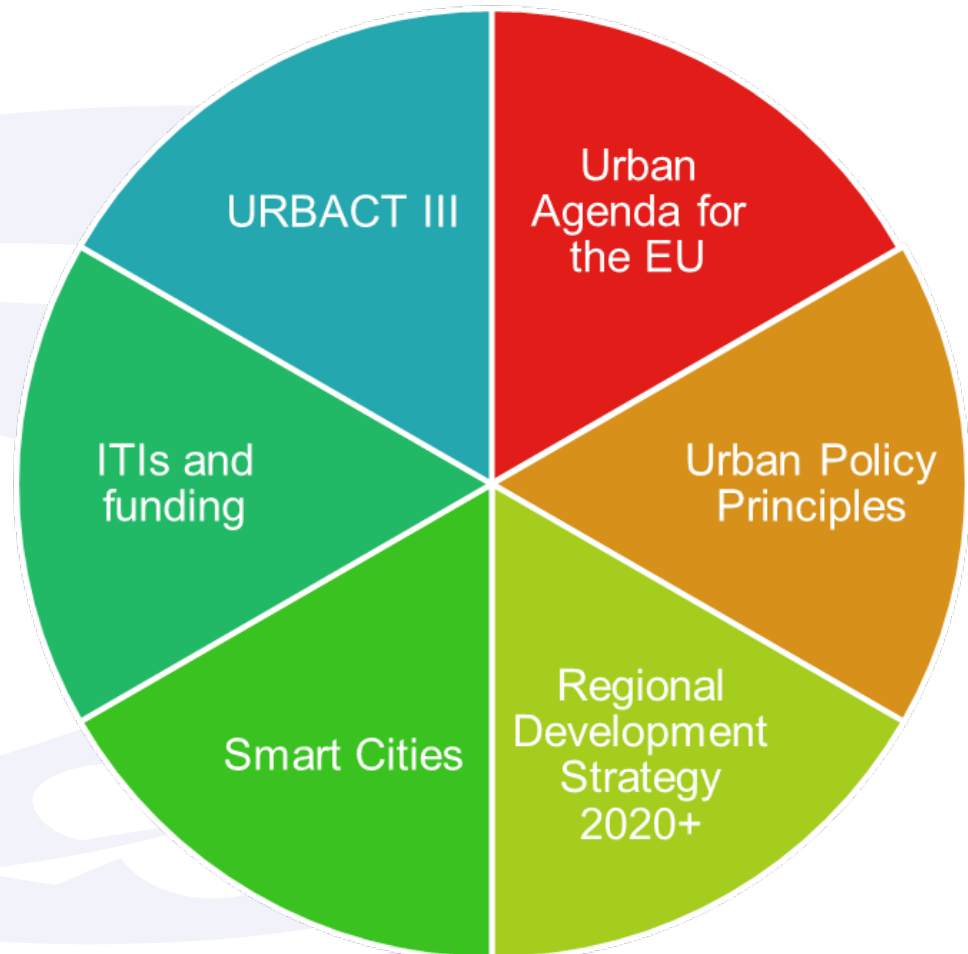

Vera-Karin Brázová, Head of Urban Policy and Strategies Unit

Jiří Vlček, Specialist

Context

- Smart Cities = one of the Ministry's competencies (under regional development / urban development)
- From a part of a „urban development mosaic“ to a cross-cutting issue

Our activities so far...

Methodology for the preparation and implementation of the Smart Cities concept at the level of cities, municipalities and regions

Sharing knowledge, best practice

- **WG Smart Cities** and **Minister's Advisory Group**
- **Annual contest** „[Chytrá města pro budoucnost](#)“ / „[Smart Cities for the Future](#)“

Research and Innovation (Ministry as beneficiary of projects funded by the Technology Agency of the Czech Republic)

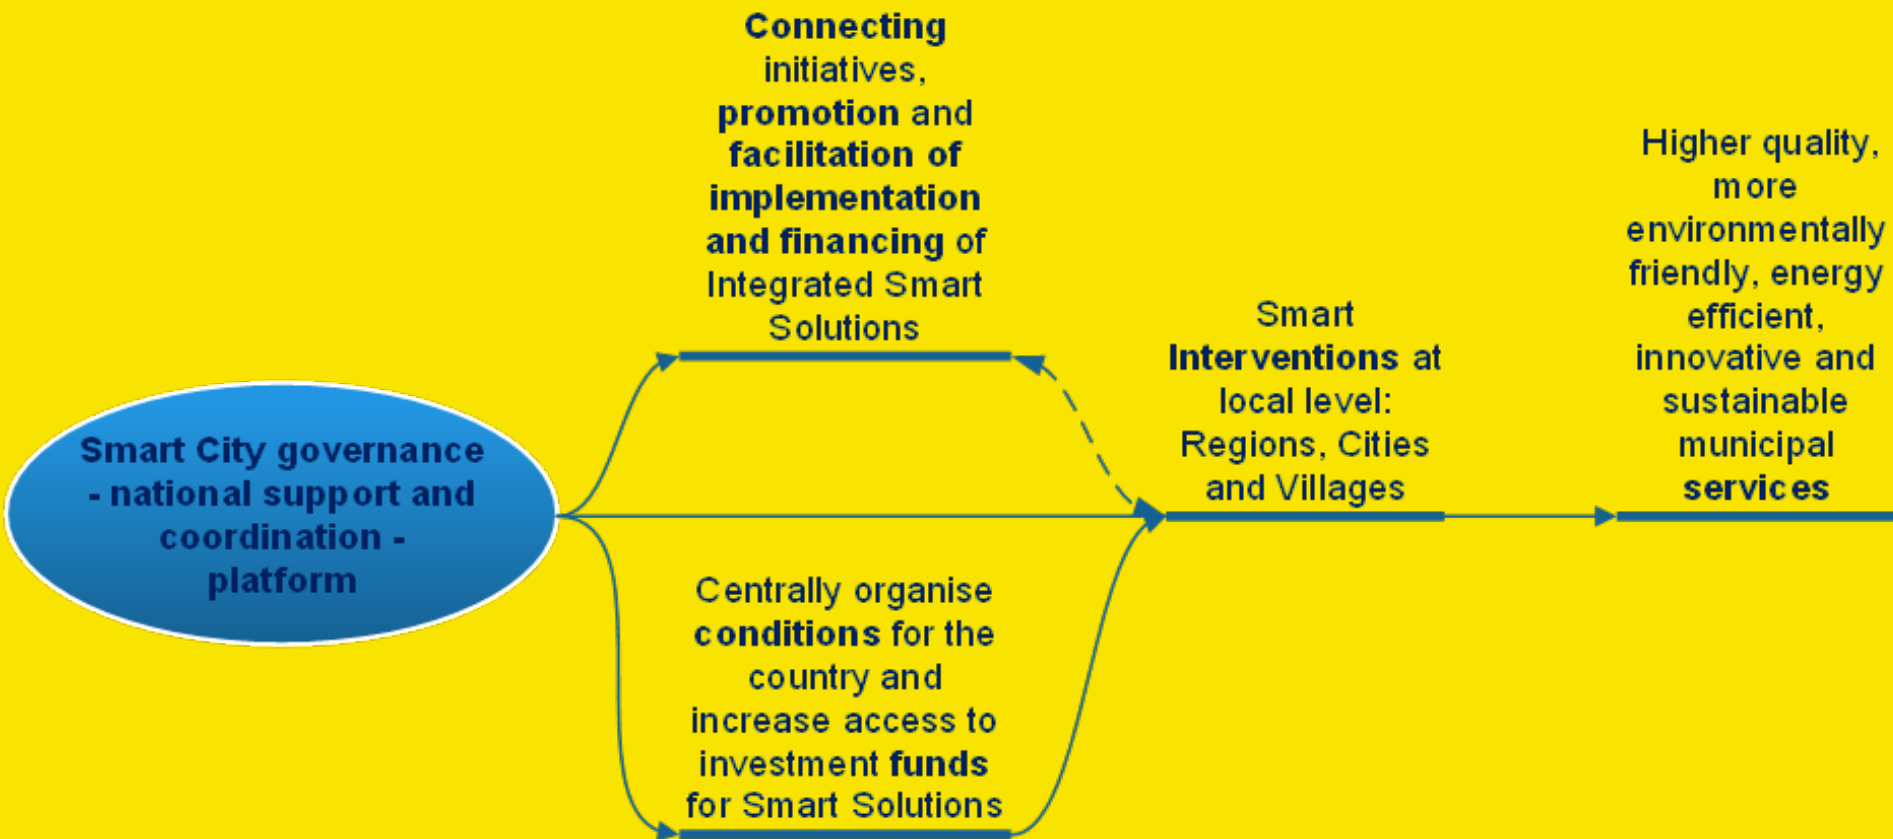

- **COMPASS** (web application for indicators for sustainable smartcities)
- **Smart Governance methodology**
(<https://mmr.cz/cs/microsites/sc/metodiky/metodika-smart-governance>)

Current projects

- **Supporting 5G in 5 Cities** - developing Smart Cities through applications and technologies based on the use of 5th generation wireless technology
- **Systematic Approach to Financing Smart Solutions** (SRSP Project)

Introducing a Systematic Approach to Financing Smart Solutions in the Czech Republic (SRSP Project)

In cooperation with European Commission and Netherlands' VNG, project duration 6/2020-6/2022

Smart Cities / „SMART Czechia“ introducing an overarching national concept

Reflect new developments at the EU level

- New Leipzig Charter, UAEU, EUI etc.

One of the implementation tools of the national „Innovation strategy 2030“

Reflect lessons learnt from the recent crisis

- Support work in an integrated way (not in silos)
- Help Czech cities, municipalities and regions to be more resilient
- Boost Czech businesses and start-ups

Formally anchor coordination and list specific tasks and responsibilities
