

Network Nature

a new resource
for the **nature-based solutions
community**

...gathers resources, projects, best practices
and tools under one roof,

...**maximises the impact and spread** of
nature-based solutions.

networknature.eu

**Consolidate, expand and support a
community of practice**

**Upscale the use of NBS across
science, business, policy and
practice**

Raise awareness

NetworkNature will **engage stakeholders and expand the NBS community** to new sectors, by identifying sectoral champions, sharing knowledge in dialogue events and disseminating guidance material.

NetworkNature will **raise awareness of NBS with the wider public** by identifying sectoral champions in NBS hubs, fostering local action through operational fund and promoting the use of educational materials.

Improve the capacities of NBS innovators and practitioners

Raise societal awareness of the benefits of NBS

Support mainstreaming of NBS across policy sectors

Enhance attractiveness of NBS for business

Strengthening NBS connections between Europe and the world

Increase understanding of benefits and risks of nature-based solutions

NetworkNature **synthesizes & strengthens the NBS evidence base and identifies knowledge gaps** by gathering experiences, knowledge, tools and services from **over 30 Horizon 2020** projects.

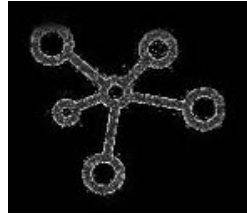

NetworkNature will **support the NBS policy agenda and ensure NBS science and practice informs the policy agenda** across levels. The platform is a bridge between the European policy landscape and the NBS community.

NetworkNature's target audiences

- Water/forest/land/agricultural management
- Infrastructure planning & implementation
- Finance and investment
- General public

National NBS Hubs in EU Member States

Anchoring NBS; create nuanced understanding of benefits and risks of NBS across climatic, geographic, ecological, political and economic contexts + dedicated online space

Tailored NBS knowledge base

NBS resources

Filtering options for target audiences, type of material to make tailored content accessible

Engage with other relevant platforms

(i.e. CitiesWithNature, EKLIPSE, Climate-ADAPT) to ensure that knowledge developed feeds into the consolidated evidence base and to support policy .
